DON'T WASTE RUBBISH!

- Better decorum for the city and higher percentage of separated waste
- Greater flexibility: choice between daytime service (raccoglincentro) or nighttime service (bins and bin bags)
- Traceability in view of individual tariffs.

RACCOGLINCENTRO GUIDE

Raccoglincentro

Raccoglincentro is an **innovative waste collection service to be added to the home collection service** and is based on 3 twin stream vehicles travelling in the afternoon , from 14.00 to 20.00 Monday to Saturday, throughout the city centre. There will be three separate circuits, blue, yellow and red, making scheduled stops of 20 minutes, during which inhabitants can dispose of organic waste and the rubbish type established by the collection schedule.

The service operates Monday-Saturday from 14.00 to 20.00 (provisional timetable).

To dispose of rubbish at the ***Raccoglincentro*** it is compulsory to shown the keyring with an identification code (**transpodner**) to the GESENU operator. Without the transponder the operator is not authorized to collect your rubbish. The ***Raccoglincentro*** operator can also hand out the blue bin bags for paper, yellow bags for plastic and metal and biodegradable liners for organic waste.
